

For years, users have turned to WinZip to simplify file sharing and protect critical information.

You told us you needed more, and we listened. Now there's a WinZip solution designed to support your key objectives, including improving employee productivity and enabling secure collaboration, while giving IT administrators the tools they need to manage sharing and maintain security. With industry-leading compression and encryption, secure email and powerful file management, WinZip 21 Enterprise is the perfect solution.

WinZip 21 Enterprise Benefits

For employees

- Unzip all major formats, including Zip, Zipx, RAR, 7Zip, BZ2, LHA/LZH, VHD, XZ and more
- Browse, open, edit, zip, protect and share files stored locally, in Windows HomeGroups, on networks or in supported clouds
- Convert to PDF, add watermarks and resize images
- Create automatic, custom backups
- Access WinZip features in other applications with WinZip Express Add-Ons
- Work on almost any device with touch-friendly features
- Easily add any network location to WinZip Files Pane
- Add multiple accounts for the same cloud and IM services, and give them unique names
- Move selected files to individual zips with optional encryption to easily share single files
- Easily see height, width, pixels per inch, pixel depth/colors, file size and other image details in the Preview Pane
- Regain system space with Background tools that help you securely store or delete unused files

For IT administrators

- Control access to cloud storage, enforce AES encryption (128- or 256-bit), set password protocols and more
- Offer employees secure sharing across email, SharePoint, Amazon S3, and IT-approved cloud accounts
- Meet U.S. government requirements for FIPS 140-2 encryption, both at rest and during exchange
- Ensure Windows Information Protection (WIP) protocols are respected when employees are using WinZip 21
- Reduce attachment sizes and secure email with Courier 7, which supports powerful FIPS 140-certified AES encryption and wipes temp files
- Open a Virtual Image file, view the content and extract files to another location. WinZip 21 includes support for VHD files, including NTFS compressed files and VMWare files

Also includes:

- "Shredding" (auto-wipe) of temporary files using the U.S. Department of Defense standard (DoD 5220.22-M) to prevent misuse
- Free 'WinZip Command Line Support Add-On' for scripting

Productivity. Flexibility. Security.
WinZip 21 is the solution.

Key customer profiles

With its proven compression technology and security features, WinZip is ideal for customers in Finance, Healthcare, Insurance, Government, and Military, as well corporations, and small/medium businesses.

The WinZip licensing model

WinZip licenses are transactional licenses. Users can buy maintenance and additional copies to expand on an existing license. The number of copies of the customer's first WinZip license determines the associated pricing tier.

Upgrading or Transitioning to WinZip 21 Enterprise

Upgrading from previous versions of WinZip is available at 50% off. If you're already a current user, you can easily transition at a special cost. For more information and to find out if you are eligible, contact your WinZip sales representative.

WinZip 21 Enterprise licenses are available for these languages: Spanish, French, German, Chinese, Chinese Traditional, Czech, Italian, Japanese, Korean, Dutch, Portuguese and Russian.

WinZip 21 Enterprise includes:

- New WinZip 21 Pro (Enterprise Edition)
- New WinZip Courier 7, which integrates into Microsoft Outlook 2007, 2010, 2013, 2016 (32-bit or 64-bit versions) and webmail, including Office 365, Yahoo! Mail, Hotmail/Outlook.com, Zoho and Gmail
- WinZip Express Add-Ons for Explorer, SharePoint and Photos
- New Enterprise Installation and Configuration Guide
- FIPS 140-2 compliance
- Windows Information Protection Support
- Enterprise Controls
- WinZip Command Line
- Plus! One year of Maintenance Free
